

Camera Power Adaptors

All V-Lok® Camera Power Adaptors have been designed to fit directly between the V-Lok® battery and any compatible Sony® camera or camcorder fitted with the Hawk-Woods' V-Lok® or Sony® V-Mount™.

This fitting allows additional broadcast equipment to be powered directly from the camera's battery.

All are supplied with a Power-Con output that is fully regulated to 12Volts. This regulated output can be used to power any 12V piece of equipment up to a maximum power of either 35W or a massive 50W depending on the model you are using.

The high quality regulator fitted, will act as a "soft start" when using tungsten lamps. This will stop Li-Ion batteries from shutting down due to the power-up requirements of a cold filament.

If using either the VL-CA2/X or the VL-CA4/X the adaptor allows the powering of video senders, TFT monitors and radio-mic's via the Hirose fitted to the side of the adaptor. These outputs are offered in pairs of independently switchable Hirose sockets, proving enough outputs to cope with any power situation.

VL-CA2 / VL-CA2X

SPECIFICATIONS:

Hirose Output:	2-Ch / 12VDC Regulated / Fused
PC Output:	12VDC Regulated / Fused
Max Output:	35W or 2.9A (VL-CA2) 50W or 4.2A (VL-CA2X)

DIMENSIONS & WEIGHT:

Length:	15.4cm
Width:	8.4cm
Depth:	4.0cm
Weight:	255g (VL-CA2) 260g (VL-CA2X)

FEATURES:

- 12V 2 x Hirose Outputs / SW
- 12V Regulated Power-Con Output
- All Outputs Independently Fused with Self-Resetting Device's

Camera Power Adaptors

Hawk-Woods

VL-CA4 / VL-CA4X

SPECIFICATIONS:

Hirose Output:	4-Ch / 12VDC Regulated / Fused
PC Output:	12VDC Regulated / Fused
Max Output:	35W or 2.9A (VL-CA4) 50W or 4.2A (VL-CA4X)

DIMENSIONS & WEIGHT:

Length:	15.4cm
Width:	8.4cm
Depth:	4.0cm

Weight:	260g (VL-CA4) 265g (VL-CA4X)
---------	---------------------------------

FEATURES:

- 4x Hirose Outputs
- 12V Regulated Power-Con Output
- All Outputs Independently Fused with Self-Resetting Device's

VL-CA5 / VL-CA5X

SPECIFICATIONS:

PC Output:	12VDC Regulated / Fused
Max Output:	2.9A or 35W (VL-CA5) 4.2A or 50W (VL-CA5X)

DIMENSIONS & WEIGHT:

Length:	15.4cm
Width:	8.4cm
Depth:	4.0cm

Weight:	230g (VL-CA5) 265g (VL-CA5X)
---------	---------------------------------

FEATURES:

- 12V Regulated Power-Con Output
- All Outputs Independently Fused with Self-Resetting Device's
