

The **STEERING P70** Pedestal is a new version of the bestselling P70, a portable and compact steering system for both studio applications with a super-smooth drive for easy travelling and OB applications.

Extremely stable, yet lightweight, the P70 delivers a superb performance with any camera/lens combinations up to 70 Kg (150 lbs).

The air filled, "on-shot" column is fast and safe to operate, it works with Nitrogen or clean compressed air that can be loaded with any compressor or a simple hand pump. A safety air pressure valve prevents danger of air overpressure.

An innovative column design provides outstanding stability and jerk-free control with exceptional smoothness and precise movements.

The sturdy **STEERING P70** dolly is equipped with three sets of double 12,5 cm (4.9 in.) diameter heavy-duty wheels, individually lockable and casted with an innovative bi-component polyurethane mix for enhanced steering. An advanced design chain allows accurate travelling in crab position even "on shot".

The system interfaces with all flat base, 4-bore holes Heads or any other bowl based Head with an adapter.

The **STEERING P70** comes with a removable foot bar, 4x500 gr. (4x1.1 lbs) counterweights, adjustable cable guards and a manual air pump.

### SPECIFICATIONS

Maximum Capacity	<b>70 Kg</b>	<b>150 lbs</b>
Minimum height	<b>80 cm</b>	<b>31.5 in.</b>
Maximum height	<b>125 cm</b>	<b>19.2 in.</b>
On shot stroke	<b>45 cm</b>	<b>17.7 in.</b>
Wheel diameter	<b>12,5 cm</b>	<b>4.9 in.</b>
Doorway tracking width	<b>81 cm</b>	<b>31.9 in.</b>
Dolly leg radius	<b>45 cm</b>	<b>17.7 in.</b>
