

DIONIC 26V Series

The lightweight and agile alternative to block batteries for high-powered, versatile, travel-safe* power on set.

NEW

Dionic 26V Gold Mount *Plus* Battery

DIONIC 26V batteries are the perfect solution to run the power-hungry devices necessary for today's demanding cinematography standards.

Power multi-function creative lighting such as the Litepanels Gemini range or similar high-energy LED panels, high-end cine cameras including the ARRI Alexa LF, SXT and 65 cameras.

*98Wh Battery is travel-safe

The DIONIC 26V Advantage

Faster Charging

Dedicated to one powerful voltage, Anton/Bauer DIONIC 26V batteries - together with the LP4 26V Quad Charger - can recharge to full power faster than dual-voltage batteries. Run powerful cameras and lights on your set for hours not minutes with fewer batteries.

More Accurate

With only one voltage to monitor, Anton/Bauer DIONIC 26V batteries can predict run times more accurately than dual-voltage batteries. With the industry's most reliable fuel gauge you won't be left powerless on set.

Longer Life

DIONIC 26V batteries manage energy more efficiently than dual-voltage batteries. 26V design spreads the power load over more cells to extend battery life for greater returns on your investment.

More Power

With DIONIC 26V batteries, more amps means more constant power. With no need for boost converters like dual-voltage batteries, your sensitive high-end cameras and lights can draw maximum power with no stress.

Infinite Power

With long run times and short charge times the DIONIC 26V system will keep your cameras and lights running all day. With a run time of ~45 minutes and rapid charging in ~1.5 hours, just three batteries will keep an Alexa LF running continuously.

High-powered, versatile, travel-safe Power on set

Available in 98Wh and 240Wh versions, Anton/Bauer smart battery technology combined with high energy cells provides consistent power with protection from over-voltage, short-circuits and heat. **Have confidence that your equipment will always be ready when you need it. Know your battery runtime down to the minute with the on-board LCD display or in your camera viewfinder.**

The Gold Mount **Plus** mount on DIONIC 26V batteries is not only the industry's most secure battery lock system but also enables the most reliable communications between the battery and a camera or light with both gold mount and SMBus communication protocols. The Gold Mount **Plus** lock system protects sensitive equipment from overcharge with a unique configuration designed to prevent high voltage powered batteries from connecting to low power devices.

When your production demands that your equipment runs at peak performance, DIONIC 26V batteries ensure that you have the power.

Smart Technology

Over-discharge, over-voltage, short circuit and thermal protection.

Gold Mount **Plus**

Most secure battery mount and reliable communications between battery and powered device.

On-board LCD Screen

Knowledge is power, know your runtime down to the minute.

Wooden Camera | Anton/Bauer
26V Gold Mount Plus
 ARRI Alexa LF, 65, SXT

Attaches one 26V battery to the back of the ARRI Alexa LF, 65, and SXT cameras. Prioritized 2pin DC input to support block batteries with hot-swap backup and OLED screen for voltage information. Includes two regulated 15V P-Tap ports.

Wooden Camera | Anton/Bauer
26V Gold Mount Plus Sharkfin Battery Bracket
 ARRI Alexa LF, 65, SXT

Attaches two 26V batteries directly to the back of the ARRI Alexa LF, 65, and SXT cameras. Prioritized 2pin DC input to support block batteries with hot-swap backup and OLED screen for voltage information. Includes two regulated 15V P-Tap ports.

Litepanels | Anton/Bauer
26V Gold Mount Plus Dual Battery Brackets
 3-Pin / 4-Pin XLR Output

26V Dual Battery Bracket for high-power LED lighting such as the Litepanels Gemini 2x1, ARRI SkyPanels or similar fixtures. Run lights at full intensity using two hot-swappable Anton/Bauer 26V batteries.

Batteries

Gold Mount Plus

Dionic 26V 98Wh

Dionic 26V 240Wh

Capacity	99Wh	250Wh
Available Mounts	Gold Mount Plus	
Dimensions (WxHxD)	3.9" x 5.2" x 2.8" / 9.9cm x 13.1cm x 7.1cm	3.4" x 3.9" x 5.2" / 9.9cm x 13.1cm x 8.7cm
Weight	2.05lbs. / 0.93kg	3lbs. / 1.36kg
Current	12A Constant	
Operating temperature range	-4°F to 140°F / -20°C to 60°C	
Output Voltage	17.5V - 28.9V or 25.4V Nominal	17.5V - 29.4V or 25.2V Nominal
Charge time	~1.5 hours to 100%	~3.5 hours to 100%
Warranty	2 Years	

Charger

Gold Mount Plus

LP4 Quad Gold Mount Plus Charger

LPD Quad Gold Mount Plus Discharger

Compatible Mounts	14.4V Gold Mount / 26V Gold Mount Plus
Dimensions (WxHxD)	9" x 3.6" x 12.2" / 22.9cm x 9.1cm x 31cm
Weight	4.7lbs. / 2.13kg
Operating temperature range	-4°F to 140°F / -20°C to 60°C
Supply Voltage	100-240 VAC, 50/60 Hz
Smart charging technology	Rapidly charge 26V batteries faster than standard 14.4 chargers
