Haivision

Makito X Series
Professional Encoding and Streaming Solutions from Haivision

Haivision's award-winning Makito X series of encoders and decoders enables ultra low latency end-to-end transport of secure, high-quality video, even over unpredictable networks.

Makito X products are available in a broad range of configurations including:

- H.264 and/or HEVC encoding and decoding
- Single, dual, or quad-input channel operation
- Compact, ruggedized & fanless operation
- HD-SDI/Composite or DVI input options
- Storage options: fixed, removable or without storage
- Rackmounting in high density 1RU, 2RU or 4RU chassis

Makito X4 Encoder

Designed for the most demanding live low latency video applications, the Makito X4 Encoder can support up to four 1080p50/60 HD inputs or a full 2160p50/60 4K UHD video source with up to 32 channels of digital audio.

4K Broadcast Quality Video At either 8- or 10-bit pixel depth, Makito X4 delivers excellent picture quality, making it ideal for a broad range of live video applications. For workflows where superior color precision is needed, the Makito X4 offers 4:2:2 chroma subsampling and 10-bit pixel depth to ensure that maximum color fidelity can be maintained, and artifacts prevented, in downstream workflows.

Ultra Low Latency The Makito X4 streams HEVC and H.264 video with very low latency, making it ideally suited for interactive video applications such as field contribution, live interviews, and return feed confidence monitoring as well as mission critical ISR applications.

Makito X H.264 Encoders & Decoders

Haivision's award-winning Makito X H.264 encoder and decoder transports secure, low latency, HD video over any network at extremely low bitrates. And with Network Adaptive Encoding, Makito X ensures your stream plays even when network performance chokes. The Makito X is ideal for live, interactive and bandwidth constrained applications and is available with single channel SDI, DVI and Dual channel SDI configurations.

Stream Sync for Remote Production Multiple Makito X encoders & decoders can be used with synchronized cameras to enable cost-effective and efficient remote production capabilities with multi-channel simultaneous decoding & playback.

Security & Stream Tuning By implementing the Advanced Encryption Standard (AES) protocol within Haivision's SRT, Makito X decoders delivers video content securely and ensures high quality even on congested or unreliable networks. The Makito X decoder provides recovery from packet loss with either forward error correction (FEC) or using SRT with an adjustable receive buffer to tune its performance for various network conditions.

Makito X HEVC Encoder & Decoder

With the Makito X HEVC, you can reduce bandwidth requirements by 50%, while maintaining video quality when compared to H.264. The Makito X HEVC differs from competing HEVC encoders by combining a four engine Makito X H.264 architecture with a dedicated HEVC encoding engine. Makito X HEVC supports existing H.264 workflows, and offers the best-in-class HEVC performance.

HEVC & H.264 Decoding The Makito X HEVC Decoder is a highly-versatile component of any low-latency video workflow. Compatible with the Makito X4 Encoder and capable of decoding streams with 8- or 10-bit pixel depth & 4:2:0 or 4:2:2 chroma subsampling, the Makito X HEVC Decoder supports the most demanding broadcast, defense and enterprise applications.

Haivision

Makito X Encoder with Storage

Record High, Stream low The Makito X with Storage is the perfect encoder for situations where bandwidth availability is limited and keeping a high quality master for further review, archiving or post production workflows is necessary. The Makito X with Storage is built with multiple encoding cores, allowing you to stream live video at low bitrates while recording up to two high quality streams directly onto the encoder. Both .ts and .mp4 files are supported.

Fixed and Removable Storage With 250GB (expandable up to 1TB) of either fixed or removable storage, the Makito X with Storage can record up to 5 days at 5Mb/s or 30 hours at 20Mb/s. Removable storage is powered by industry standard 2.5" SATA SSD drives, giving you the option to quickly remove a drive once full, and allowing for content backups regardless of how close you are to your main storage/server facility.

Remote Management The Makito X with Storage can be programmed and controlled remotely through command line, web UI, and SNMP APIs. You can set a time or size limit on the recording segments allowing for easier management of your video files. Simply upload your video from the Makito X with Storage to a USB, SD Card, Haivision Video Cloud, Haivision Media Platform, FTP, or NFS

Makito X Harsh Encoder & Decoder

Extreme Encoding & Decoding The Makito Harsh Environment encoder and decoder are industrial-grade fanless appliances designed for high operating temperature environments within static deployment applications.

The Makito X series of H.264 encoders and decoders for harsh environments delivers a complete field proven video solution offering confidence, security, and reliability with a mature feature set.

Haivision

High Quality
Delivers pristine quality live encoded video, even at low bitrates, making it ideal for Internet or satellite transport of video.

Ultra Low Latency
Ideal in applications where end-to-end latency below 200 ms is required. Respond in real-time to mission-critical video information.

4K Broadcast Quality Video
Encode live video up to 4K/UHD for streaming over IP networks. Supporting up to 4:2:2 10-bit color for workflows where superior color precision is needed.

Next-gen Compression
Flexible encoding & compression, adapting to different network environments and applications. HEVC (H.265) options reduce bandwidth by up to 50% compared to H.264.

Remote Production with Stream Sync
Makito X series includes encoder/decoder pairs for any high-performance use case as well as synchronized multi-camera workflows. Provide a cost-effective alternative to deploying large teams of personnel & resources at remote event locations.

SRT
Assures quality-of-service when faced with packet loss, jitter, latency, and fluctuating bandwidth from unpredictable networks.

Secure
Secure end-to-end unicast or multicast video distribution & AES 128/256 bit encryption.
Ruggedized
Fanless chassis option designed for high operating temperature environments. Designed for demanding portable and space-constrained applications.

KLV Metadata
Supports full-motion video requiring STANAG and MISP compliant Key-Length-Value (KLV) metadata.

High Density
Highly flexible deployment from ultra compact appliance to 21 blade (4RU) chassis. Ideal where size, weight and power considerations are critical.

Powerful Features for Defense, Broadcast, and Enterprise

The Makito X series of encoders and decoders are designed to address the most rigorous video applications in enterprise, defense and broadcast. Multi-bitrate (MBR) encoding to unicast, multicast, and RTMP enables administrators to direct many unique streams groomed to specific desktop and mobile viewers, set-top boxes, recorders, and Internet destinations. With Network Adaptive Encoding and SRT, the Makito X dynamically adapts to changing network conditions so you never lose your video streams.

Integrated features such as snapshots, logo insertion, Selective Mute™, talkback, and powerful control interfaces enable advanced video network management in enterprise applications. The excellent picture quality at low bandwidth and the lowest end-to-end latency of the industry makes the Makito X platform ideal for a broad range of applications.

The Makito X series is ideal for live, interactive and headend applications and is used in:

| DEFENSE	BROADCAST	ENTERPRISE
Mission Command & Control	Live News Contribution	Backhaul for All Hands
Situational Awareness	Remote Production	Remote Contribution
Cross Domain Sharing	Point-to-Point Distribution	Secure IPTV Contribution

Defense | Mission Critical Video Solutions

Haivision video streaming solutions support mission-critical video applications. With high quality, low latency, and best-in-class security, Haivision solutions power applications for Intelligence, Surveillance, Reconnaissance (ISR), Test & Training Ranges, and Command & Control (C2) operations centers. Makito X encoders are designed for ISR applications where uplink network bandwidth is limited and costly. Combining KLV and CoT metadata support makes the Makito X ideal for Full Motion Video (FMV) applications in government and military.
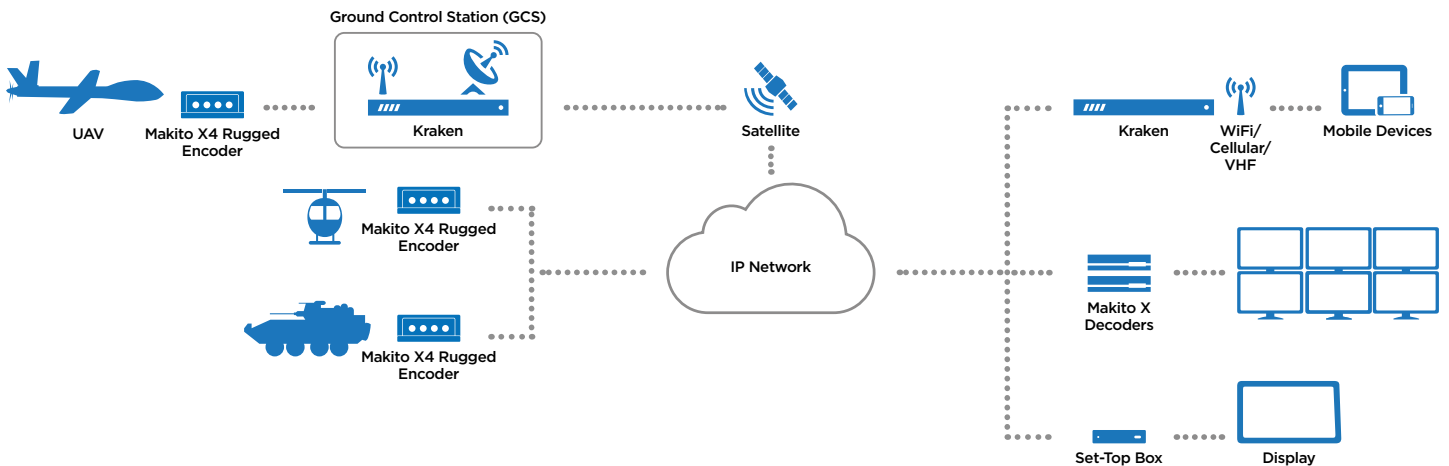

Broadcast |4K Field Contribution with Makito X4

Meet your audience's demand for more content with Makito X encoders and decoders.When news is breaking, internationally or regionally, timely access to relevant video is critical. By using Haivision's Makito X encoding technology for low latency video, broadcasters are getting field content from anywhere, cost-effectively, over any network.

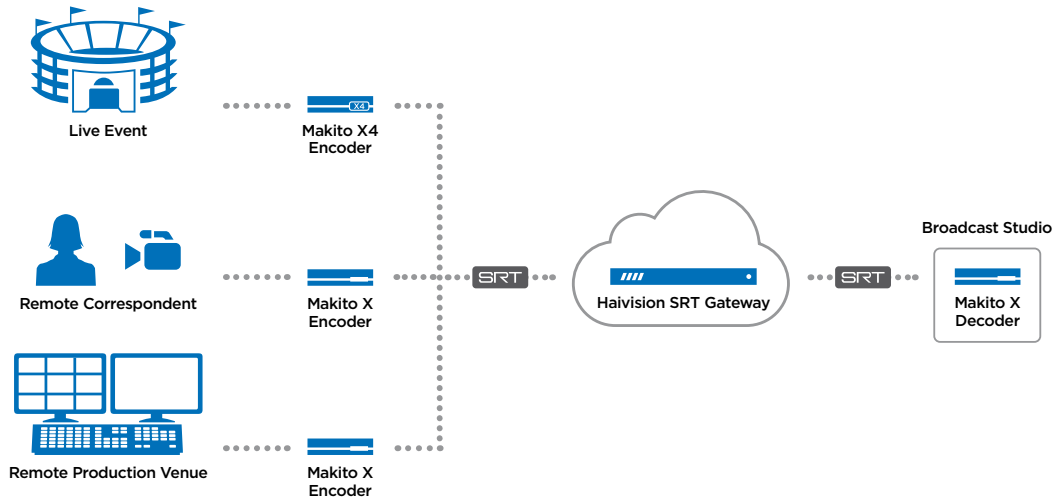

Broadcast | Remote Interviews & Interactive Contribution

With the Makito X encoder and decoder, broadcasters have the power to provide audiences with more content from remote locations, allowing for real-time commentary on breaking news or current events. With low latency and SRT, broadcasters can take advantage of low cost internet connections to deliver high quality video without the need for dedicated networks or satellites.
Broadcast | Remote Production

Haivision Remote Production workflows allow you to cover a wide range of live events including sports, musical performances or news, without the costly overhead of deploying production teams and OB trucks to each site. By streaming synchronized, low latency multi-camera feeds from venue to the broadcast studio over cost-effective IP networks, you can boost your productivity and satisfy the need for more content without the costs of onsite deployment or the logistical challenges.

Broadcast | Confidence Monitoring & Return Feeds

Makito X encoders are suitable for many broadcast contribution workflows. With the addition of Haivision SRT Gateway, producers can make quick decisions through confidence monitoring of broadcast production feeds live on their mobile devices from anywhere, even when on-the-go.
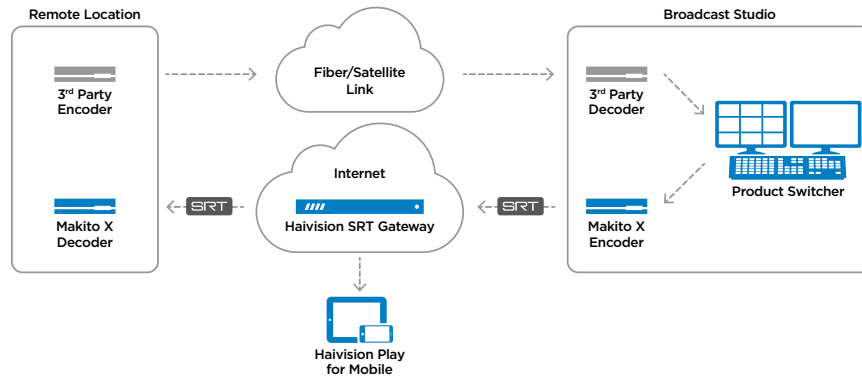

Enterprise | Corporate Communications

Communication is critical to efficient enterprise operations and an effective communication strategy relies on selecting the right delivery channels. Haivision's portfolio of video streaming solutions including the Makito X series help enterprises connect with their employees, customers or partners with live or on-demand video distributed within a private network or over the Internet.

MB6

MB21

High Density, Flexible, and Scalable Chassis

Designed for high density deployment in server rooms across broadcast, enterprise, universities, and hospitals, the MB series of chassis provide flexible and scalable solutions where rackmount installations are required.

High Density Multichannel Chassis Haivision's encoders, decoders, and gateways are available as single product appliances or as independent mini-blades. For installations where rack mounting is desired, Haivision offers rackmount kits for single and dual-height appliance enclosures, as well as the MB6 and MB21 enclosures, which can contain up to 6 or 21 encoder/decoder blades, respectively, within the single highest density platform available. MB6 & MB21 series enclosures feature redundant power supplies, allow for in-service blade replacement and incorporate fan management circuitry to minimize fan noise. MB series enclosures can be populated with various combinations of Haivision's Makito high performance, HEVC or H.264 encoders, and HEVC or H.264 Makito decoders.

MB1 & MB2 Enclosures Makito X blades can be mounted in lightweight and portable single-height (MB1) or dual-height (MB2) enclosures. The MB2 can contain two single-height encoder or decoder blades, one dual-height encoder or decoder, or both an encoder and a decoder, providing a flexible options for building a portable unit.

MB6 AC, DC and Medical High Density Six-Slot Chassis The MB6 is designed to support fast deployments of Haivision's market-leading encoding/decoding systems in the most space constrained installations. The six-slot chassis can hold up to 6 Makito and Makito X encoders/decoders or Torpedo DVB to IP gateways, in just a single rack unit (1RU), making it the highest density system available. The MB6 is available with either redundant AC, single DC, or medical grade AC power supplies.

MB21X High Density Twenty-One Slot Chassis Designed for high density IP video headends, the MB21 holds any combination of up to 21 Makito X ir X4 products in a 7-inch rack (4RU) and also features replaceable fans and fully redundant power supplies. This high density, cost effective solution has been deployed in headends and server rooms in universities, hospitals, and enterprises worldwide.In addition, the MB21X provides a station alarm interface so as to notify operators when a power supply or fan failure has occurred.

Redundancy Redundant AC inputs and a field serviceable power supply allows the MB21 to continue operating even if an AC input is lost or a Power Supply Unit (PSU) fails. The MB21X dual PSU variant can remain fully operational if a single power supply has failed. With the MB6X-RAC, a single AC input or PSU can fail without affecting the operation of the unit.

Rackmounting Appliances

1RU or 2RU mounting brackets available for mounting one or two Makito or Makito X appliances (single or double height) in machine rooms racks.

Rear

MB2

Rear

## MB6X with DC Power Supply (MB6X-DC)

Front (This is the same schematic as for MB6X-DC, MB6X-MED and MB6X-RAC)

Rear

MB6X with Medical Power Supply (MB6X-MED)

Rear

MB6X with Redundant AC Power (MB6X-RAC)

Rear

MB21X

Rear - With dual power supplies, removable fans, and station alarm interface

Makito X Product Name	SKU	Description
ENCODERS		
Makito X H.264 Single SDI	S/B-292E-HDSDI1	Makito X Encoder Appliance (S) or Blade (B) HD H.264 IP video encoder supporting a single 3G/HD/SD-SDI and Composite
Makito X H.264 Dual SDI	S/B-292E-HDSDI2	Makito X Encoder Appliance (S) or Blade (B) HD H.264 IP video encoder supporting dual 3G/HD/SD-SDI and Composite
Makito X H.264 DVI	S/B-292E-DVI	Makito X Encoder Appliance (S) or Blade (B) HD H.264 IP video encoder supporting a single DVI-I and Component
Makito X HEVC Single SDI	S/B-292E-SDI1-HEVC	Makito X HEVC Appliance (S) or Blade (B) HD HEVC/H.264 IP video encoder supporting a single 3G/HD/SD-SDI or Composite
Makito X HEVC Dual SDI	S/B-292E-SDI2-HEVC	Makito X HEVC Appliance (S) or Blade (B) HD HEVC/H.264 IP video encoder supporting dual channel 3G/HD/SD-SDI or Composite
Makito X Harsh Single SDI	S-292E-X1H	Makito X Single SDI Encoder Appliance for Harsh Environments
Makito X Harsh Dual SDI	S-292E-X2H	Makito X Dual SDI Encoder Appliance for Harsh Environments
Makito X Harsh Single DVI	S-292E-DVI-H	Makito X Single DVI Encoder Appliance for Harsh Environments
Makito X4	S/B-MX4E-SDI4	Makito X4 SDI Encoder Appliance (S) or Blade (B) - H.264/AVC & H.265/HEVC IP Video Encoder - Quad channel 3G/HD/SD-SDI
DECODERS		
Makito X H.264 Single Decoder	S/B-292D-HD1	Makito X Decoder Appliance (S) or Blade (B) HD H.264 IP Video decoder supporting single channel 3G/HD/SD-SDI and HDMI
Makito X H.264 Dual Decoder	S/B-292D-HD2	Makito X Decoder Appliance (S) or Blade (B) HD H.264 IP Video decoder supporting dual channel 3G/HD/SD-SDI and HDMI
Makito X HEVC Single Decoder	S/B-292D-HD1-HEVC	Makito X HEVC single channel decoder appliance (S) or blade (B)
Makito X HEVC Dual Decoder	S/B-292D-HD2-HEVC	Makito X HEVC dual channel decoder appliance (S) or blade (B)
Makito X Harsh Single Decoder	S-292D-X1H	Makito X Single Channel Decoder Appliance for Harsh Environments
Makito X Harsh Dual Decoder	S-292D-X2H	Makito X Dual Channel Decoder Appliance for Harsh Environments
RACKMOUNT KITS		
21 Slot Chassis with Dual Redundant AC for Makito X Blades	F-MB21X-R	Rackmount 4RU Chassis - Up to 21 Makito X mini-blades, Redundant Dual AC power supply, 100-240VAC 47Hz-63Hz, 600 Watt max.
6 Slot Chassis Redundant AC	F-MB6X-RAC	1RU Rackmount Chassis – Up to 6 Makito/Makito X/Torpedo2 mini-blades, Redundant AC power supply, 90-264VAC, 47Hz-63Hz, 300 Watt max.
6 Slot Chassis DC	F-MB6X-DC	Rackmount 1RU Chassis - Up to 6 Makito/Makito X/Torpedo2 mini-blades, DC power supply, 2-36 VDC, 300 watt max.
6 Slot Chassis Medical Grade AC	F-MB6X-MED	Rackmount 1RU Chassis - Up to6 Makito/Makito X/Torpedo2mini-blades, Medical grade AC power supply, 90-264VAC, 47Hz-63Hz, 300 Watt max.
1RU appliance mounting bracket	RU-MB1-1 RU-MB1-2	1RU mounting bracket for one or two single-height appliance chassis
2RU appliance mounting bracket	RU-MB2-1 RU-MB2-2	2RU mounting bracket for one or two double-height appliance chassis
